

# Lower Guadalupe River & Canyon Lake

The Guadalupe River is one of the most beautiful and adventure ready destinations in Texas. The upper river runs fast and is lined up at the banks with limestone and pecan and bald Cyprus trees. This part of the river is popular as a tubing destination in the spring and summer. The perfectly paced water with the shades offered by trees on the banks gives tourists a spectacular experience, one that can be enjoyed and shared with friends and family.

Canyon Lake, Texas offers lots of fun and thrills, especially if you love water activities. Canyon Lake is a small yet beautiful place located about 25 miles to the west of New Braunfels and San Marcos and roughly 40 miles to the north of San Antonio.
